- Conditional permit – authorized under subsection 8(3)

**1.**

**Permit fees:**

Construction Cost (CC) shall be calculated by the following formula:

$$SI \times A = CC$$

SI = cost per square foot of construction as determined by Service Index in Table 1

A = total area calculated in square feet (sq ft)

Total Construction Cost (TCC) shall be the total of all Construction Costs (CC) calculated for the proposed permit.

Permit fees (PF) shall be calculated using the following formula:

$$[(TCC / 1000) \times \text{Rate}] + \text{Administrative Fee} = PF$$

TCC = Total Value of Construction calculated in Table 1

Rate = \$10.00

Administration Fee shall equal:

\$80.00 for TCC of equal to or less than \$5000 or;

\$120.00 for TCC of more than \$5000

The minimum fee for a permit shall be \$100.

**Note:** where the actual construction cost, as declared by the applicant, exceeds the above formula, the actual construction cost shall be used to calculate the permit fee.

		(min fee \$100) TOTAL*:
*Total fee will be doubled or \$250 will be charged (whichever is higher), if building or demo is commenced prior to the issuance of a Building Permit.		

**Re-Inspection Fee:**

When the Inspector or CBO has been notified that any construction, plumbing or installation is ready for inspection and same is not ready when the building official attends to inspect same, or if the installation or construction fails to conform to the requirements to which same is obliged by-law to conform (OBC and Municipal by-laws), a re-inspection fee for each additional required inspection may be payable by the persons to whom the permit has been issued. This fee is payable at the municipal office and must be paid before any further inspections can be done.

**Water Access or Remote Access**

If the construction site is water access only, the owner or permit holder will provide safe and adequate transportation at his or her expense from landing to construction site for the building official or inspector to perform all required inspections. In the event that the owner or permit holder is unable to provide transportation, he or she will be responsible for additional costs for the building official to provide his or her own transportation.

If special equipment (i.e. boat, ATV, snow machine, etc.) is required to access the construction site, extra charges as determined by the CBO will apply and will be added to the permit fee.

**Refunds:**

Application filed and accepted, no processing or review of plans	80% refund
Application filed, plans reviewed and permit issued or refused	75% refund

Refund is less \$50.00 for each inspection performed and mileage charge of \$0.55 per kilometer for site inspection with a minimum charge of \$15.00 per permit for mileage.

Material change to plans which would have reduced initial permit fee: new fee will be calculated based on change and refund will be made for the difference, less Administration Cost.

**Note:** Notwithstanding above:

- 1) No refund shall be made or an amount of \$50.00 or less
- 2) The fees that may be refunded shall be a percentage of the fees payable as outlined in this schedule
- 3) All refunds shall be approved by the CBO.
- 4) No refund shall be made in the event a permit is revoked, or where construction is substantially suspended or discontinued for more than a year or if the building permit file is closed and a final inspection was not requested.
